Genslinger as General Manager of the Club.

WILL ENROLL ATHLETIC MEMBERS,

Who Can Be Admitted to the Organization Without Payment of Initiation Fees. A Strong Team to Get Together.

A new regime has come into existence at the New Manhattan Athletic Club,

This occurred yesterday, when C. Heury Genslinger, the manager and secretary, was relieved of office and terms were arranged in reference to the disposal of the stock held by Mr. Genslinger. This change was caused by the radical differences of plinion that existed between Mr. Herbert allantine and Mr. Gensilnger regarding the management of the club in the past and its policy for the future.

Both of these gentlemen, however, posiively refused to discuss their affairs in their being at loggerheads.

At the meeting of the Board of Trustees on Monday night it was finally decided to part company with Mr. Genslinger and broughly reorganise the club. Mr. John Adams, one of the trustees and Mr. Herbert Ballantine's personal representa-

200 Pounds and Contain Many

Boston, Mass., March 3 .- Coach Watson, of the Harvard crew, confirms the rumor that Yale, has given an order to Davies for a the Harvard crew, confirms the rumor that new eight-oared shell. He sald further that Harvard is having built two eightare to be superior to any ever made. Xale's New York's Baseball Standard Harry Cornish Succeeds C. Henry oared shells for the 'Varsity crew, which shell is to be built by F. M. Davies, the

shell is to be built by F. M. Davies, the oarsman and inventor of rowing apparatus at Detroit, and will have the latest Davies improvements and inventions.

The new boat is to have Mr. Davies's new swivel handles, which permit an oarsman to row correctly in board at all times and gise to apply all his strength to the sweep without consideration of the feather and the dip. It will also have the other improvements, anti-crab, straight feather and correct angle dip of the sweep. The shell will measure sixty-eight feet, the general length being from sixty-one to

The shell will measure sixty-eight feet, the general length being from sixty-one to sixty-four feet.

These are the measurements given for Harvard's new shells, being built at Worcester, and the beam of the new Yale shell ordered is twenty inches and the depth ten inches. This is very much of an innovation.

ONLY THREE OLD-TIMERS PRESENT.

Played His Filly Gladiola Heav-

City's Track.

New Orleans, March 3 .- The bookmakers resped their regular harvest to-day, Honor being the sole first choice to get home in front. It was hoped that the fast track would result in an end of the in-and-out running, but the looked for improvement has falled to come, and the meeting will probably end with the distinction of having furnished more inconsistent running than even Guttenburg did in its palmiest days.

The first race was Honor's. Clayton worked her into the lead before the race was half run, and at the end she won rather easily, with Cochina second, a length in front of Billy Kinney.

Ironstone was best liked of the ten two-year-olds that answered the post call in the second race, but the best he could do was second. Roltaire making the running throughout and winning in a canter. Clematis was third. The half mile was run in 3% seconds. Had the winner been pushed he would have beaten the track record.

Jim Dyer and his friends won a lot of money on the third race. His filly Gladlola front. It was hoped that the fast track

which are within 200 feet of a church or Paladin school do not hold a valid license, a large in making measurements to see what sa-
